

```
safetail :: [a] -> [a]
```

1.

```
safetail xs = if null xs then [] else tail xs
```

2.

```
safetail xs | null xs      = []  
            | otherwise    = tail xs
```

3.

```
safetail [] = []  
safetail (_:xs) = xs
```
